Portfolio: <https://gekwueme.co.uk>

PROFESSIONAL SUMMARY

Full Stack Developer skilled in building complete web solutions from database design to responsive user interfaces. Proficient in PHP, MySQL, JavaScript, jQuery, Bootstrap, and WordPress. Combines technical expertise with strong communication skills and a user-centered development approach. Completed intensive full-stack development training through ITCareerSwitch bootcamp, building multiple production-ready applications with modern web technologies.

TECHNICAL SKILLS

Languages: PHP, JavaScript (ES6+), HTML5, CSS3, SQL, Python

Frontend: jQuery, Bootstrap, Tailwind CSS, Responsive Design, AJAX

Backend: PHP, MySQL, RESTful APIs, JSON, Server-side Development

Tools & Platforms: Git, GitHub, WordPress, Postman, XAMPP, VS Code, phpMyAdmin

Development Practices: Version Control, API Integration, Database Design, Agile Methodologies

KEY PROJECTS

Gazetteer - Interactive Mapping Application

Tech Stack: PHP, MySQL, JavaScript, jQuery, Leaflet.js, Bootstrap

- Built an interactive world map displaying real-time country information including weather, news, and geographic data
- Integrated multiple third-party APIs using PHP backend to fetch and process JSON data
- Implemented dynamic map markers, polygons, and interactive popups using Leaflet.js library

Company Directory - Employee Management System

Tech Stack: PHP, MySQL, JavaScript, jQuery, Bootstrap, AJAX

- Developed a full CRUD application for managing company personnel, departments, and locations
- Designed relational MySQL database with proper foreign key relationships and referential integrity
- Created RESTful PHP API endpoints for all data operations with JSON responses
- Implemented AJAX for seamless user experience without page reloads

EDUCATION

Full Stack Development Bootcamp

ITCareerSwitch, UK | May 2024 - November 2025

- Comprehensive full-stack web development program covering frontend and backend technologies
- Built production-ready applications including a mapping application with RESTful APIs and a company directory system with CRUD operations

- Developed strong foundations in PHP, MySQL, JavaScript, jQuery, Bootstrap, and database design

Computer Science Studies

Stirling University, Scotland | *September 2018 - May 2022*

- Completed 3 years of coursework including algorithms, data structures, discrete mathematics, and database design
- Applied computational thinking and problem-solving skills to programming challenges
- Transitioned to hands-on bootcamp learning to gain practical development experience over theoretical study

BTEC Level 3 Extended Diploma in Information Technology

East Surrey College | *September 2016 - June 2018* | *Triple Distinction (DDD)*

RELEVANT EXPERIENCE

Freelance IT Support

Self-Employed | *January 2018 - Present*

- Diagnose and resolve technical issues for individual clients and community members
- Provide clear technical guidance and recommend appropriate technology solutions
- Perform hardware and software troubleshooting across various devices and platforms

Volunteer IT Helper

Merstham Community Centre | *December 2023 - Present*

- Resolve technical issues for community members with various devices and software
- Organize online safety sessions and provide guidance on avoiding scams
- Collaborate with team members to resolve complex technical and administrative challenges

IT Technician & Digital Champion Volunteer

Raven Housing Trust | *June 2015 - August 2015, March 2018 - May 2018*

- Served as first line of contact for technical issues via in-person, email, and phone support
- Configured hardware and software, managed user accounts, and maintained system accuracy
- Performed server maintenance and weekly backups to ensure data integrity

ADDITIONAL EXPERIENCE

Data Management Temp | Restore Records Management | *September 2024 - November 2024*

Script Investigator | AQA, Guildford | *June 2022 - September 2022*

CERTIFICATIONS & TRAINING

- City & Guilds Level 2 IT Support and Cloud Computing (JBC IT Career Builder, 2022)
- Microsoft Office 365: 70-347 (Enabling Services), 70-346 (Managing Identities)
- Windows Server 2012: 70-410 (Installing & Configuring), 70-411 (Administering)
